**Application for issuing a prolongation of
the type-examination no. (last order no.)
for personal protective equipment (PPE)**

Applicant company:.....
Authorised signatory:.....
Person in charge:.....
Address (street):.....
Postal code, place, country:.....
Telephone / fax / email:.....

We herewith submit this accredited certifying body for a prolongation of the type-examination pursuant to Directive 89/686/EEC, implemented by virtue of PSA-SV BGBl. No 596/1994 as amended, for the following PPE:

Designation allowing a clear identification of the product within the applicant's company and to be shown both on the product (label) as well as in the technical file (name or item number). For multi-part outfits please provide separately by garment (e.g.: jacket and trousers)

Standards and guidelines applied in the manufacturing of the PPE:

e.g.: EN ISO 13688:2013 Protective Clothing, General requirements
EN ISO 20471:2013 High-visibility clothing for professional use

- PSA Sicherheitsverordnung, BGBl. No. 596/1994 in the valid version (Directive 89/686/EEC)
- EN
-

Manufacturing company (if other than applicant):

Manufactured in (if other than manufacturer's place of business):

Hereby the applicant confirms that no changes were made to the PPE model (including all used components / assemblies) regarding to the previous type-examination.

The following shall be enclosed with the application:

- the current technical documentation pursuant to PSA-SV §7 (Directive 89/686/EEC Annex III)
- sealed sample of the PPE from the current type certificate
- one current production sample of the PPE

Edition 2016/07

Certification agreement

The following certification agreement corresponds to the requirements according EN ISO/IEC 17065:2013 and replaces the "Declarations and Obligations" according ÖVE/ÖNORM EN 45011 which were valid until now.

- a) The applicant is aware that an application for a type-examination for a PPE can only be submitted in one location and that a decline by this body is reported to the supervising authorities.
- b) The applicant is aware that the certification requirements including implementing appropriate changes when they are communicated by the certification body must always be fulfilled.
- c) The applicant is aware that if the certification applies to ongoing production, the certified product continues to fulfil the product requirements (see EN ISO/IEC 17065:2012 Pkt. 3.8);
- d) The applicant is committed to make all necessary arrangements for
 1. the conduct of the evaluation (see 3.3) and surveillance (if required), including Provision for examining documentation and records, and access to the relevant equipment, location(s), area(s), personnel, and client's subcontractors;
 2. investigation of complaints;
 3. the participation of observers, if applicable;
- e) The applicant committed that all claims / statements regarding certification consistent with the scope of certification
- f) The applicant committed that he does not use its product certification in such a manner as to bring the certification body into disrepute and does not make any Statement regarding its product certification that the certification body may consider misleading or unauthorized;
- g) The applicant undertakes in suspension, withdrawal or termination of the certification to take following by the certification program required measures:
 1. to stop the use of all advertising materials which contain any reference to the certification
 2. and shall return all documents requested by the certifying body
 3. and also take care that all other necessary arrangements were realised that no further sales with respect to the certification takes place
- h) The applicant committed that if he provides copies of the certification documents to others, the documents shall be reproduced in their entirety or as specified in the certification scheme
- i) The applicant committed that in making reference to its product certification in communication media (eg. documents, brochures or advertising materials) no type-examination certificate or any part thereof will be used in a misleading way
- j) The applicant complies with any requirements that may be prescribed in the certification scheme relating to the use of marks of conformity, and on information related to the product;
- k) The applicant complies to keep a record of all complaints made known to it relating to compliance with certification of requirements and makes these records available to the certification body when requested, and
 1. takes appropriate action with respect to such complaints and any deficiencies found in products that affect compliance with the requirements for certification;
 2. documents the actions taken;
- l) The applicant complies with the commitment to inform the certification body, without delay, of changes that may affect its ability to conform with the certification requirements
- m) The manufacturer declares that the examination reports submitted refer to the materials used for manufacturing PPE.
- n) The applicant shall provide the certifying body with the required number of PPE models in the required sizes.
- o) The applicant shall provide sufficient samples of the materials used for necessary laboratory examinations.
- p) The applicant agrees that examinations may also be passed on to other accredited certifying bodies.
- q) The applicant declares that it is not aware of any detrimental health effects of the materials used in the PPE.
- r) The precise rates for the type-examination are known and accepted.
- s) Confidentiality: The certification body commits itself that all information which are obtained or created during the certification activities will be considered as confidential (in accordance with the confidentiality agreement, according to the terms and conditions of our general business terms). Without a prior approval by the customer no content will be made publicly available by the certification body. Excluded are all informations that are made available to the public by the customer itself, or when there is an agreement for publication between the client and the certification body.
- t) Information about certified products: The certification body is obliged to record information about the certified products (archiving). On request, the certification body must inform at least about the validity of a particular certification. In addition to the purposes of confidentiality [see pt. s)], without previous approval by the customer, no information about the content of the type-examination certificate as well as all documents and samples related will be passed on.
